PELVIC FLOOR / PELVIC HEALTH PHYSIOTHERAPIST

Pelvic Health Matters (*formerly Women's & Men's Health Physiotherapy)* has led the way in pelvic health physiotherapy for over 30 years.

We are looking for a pelvic health physio who has a curious and courageous approach to learning and professional growth. You believe that patient centred care and the biopsychosocial approach is the only way to achieve exceptional patient outcomes but may find it challenging to put into practice.

We know being able to do this requires specific systems, processes, resources and support. We understand the increasing complexity of a pelvic health case load and have a clinical leadership team dedicated to creating a structured and supportive learning and service delivery environment. This team has a combined experience of over 100 years of clinical, leadership and mentoring experience and have developed systems and resources designed to support our clinicians and patients.

If this sounds like you and you are looking to join a close-knit, friendly and professional team who value your personal and professional well-being and genuinely live our core values of *Respect Everyone, Work Together, Strive for Excellence, Embrace Learning* and *Make Connections*, we would love to hear from you.

About Us

Pelvic Health Matters exists to restore pelvic health, empowering every person to live their best life. Every day we work in partnership with our patients to improve their quality of life.

With a proven reputation, our highly skilled team of physios are well supported to deliver an exceptional patient experience. This is reflected in our large ongoing referral base of GP, Medical Specialists and Allied Health Practitioners and high patient satisfaction.

We are invested in our patient's well-being, taking a structured whole person biopsychosocial approach to support their physical, emotional and lifestyle needs.

What Pelvic Health Matters Offers

- **We care about you** - we value your well-being with a commitment to flexibility and work life balance.
- **Great Culture** - professional, supportive and friendly.
- **Connection** - an amazing Pelvic Health Matters community who enjoy a laugh together.
- **Support** - learning and career pathway support for both less experienced and more established clinicians with weekly case study sessions and mentoring designed to meet your individual needs and goals.

leading the way

549 Burke Road, Camberwell 3124 **T** 03 8823 8300 **F** 03 8823 8399
E physio@pelvichealth.com.au **W** pelvichealth.com.au

- **Clinical Excellence** - Shan Morrison, Specialist and Fellow of the Australian College of Physiotherapists, leads a team of mostly titled physios who love to share their knowledge and clinical expertise
- **Professional Growth -** Demonstrated commitment to knowledge and learning with regular in-house professional development sessions delivered by our experienced team and guest speakers (often experts in their field). Financial support for external PD
- **Varied Caseload** – A full and fascinating caseload awaits you. 1:1 pelvic health including pelvic floor disorders, pelvic and sexual pain and musculoskeletal disorders of pregnancy and post-partum
- Beautiful purpose-built consulting rooms and workplace

To learn more about our team and what a career with us would look like see https://www.pelvichealth.com.au/join-our-team and read more about our 10 year Dream and 2029 Adventure https://www.pelvichealth.com.au/sites/default/files/pdf/phm_adventure_email.pdf

You will have

- A positive can-do attitude and enjoy being part of a team
- A curious and questioning approach to learning and change
- A willingness to do your best and strive for excellence
- Exceptional interpersonal and communication skills delivered with empathy and clarity
- A desire to connect with our inclusive community
- Post graduate qualification in Continence and Pelvic Floor or equivalent, **or intending to or currently undertaking**
- AHPRA registration and current professional indemnity insurance

Full and part-time positions available with a strong preference for 3-4 days.

A person who wants to provide a great experience to our valued patients and who is looking for a long-term position in a supportive work environment would be well suited to our needs and culture. If this sounds like the perfect role for you, then we look forward to connecting!

If you are ready to tell us all about you, apply now with cover letter and resume to Leonie Yeap, Operations & HR Manager; leonie@pelvichealth.com.au or call Leonie on 8823 8300 for a chat.

Applications close November 27th 2026, start date flexible.

We thank you in advance for your interest in working with Pelvic Health Matters.
